

DANCE FOR HEALTH

THE World Kidney Day 2015 celebrations by National Kidney Foundation Malaysia (NKF) ended with hundreds of Malaysians coming together to dance in support of better kidney health.

Participants at the roadshow enjoyed other activities like free health checks, health exhibitions, performances by LimKokWing University students and a family colouring

contest.

The event raised RM35,000 which will go towards providing underprivileged kidney patients access to dialysis treatments.

*Celebrity Fitness star instructors led the crowd in an exciting three-hour charity **dance marathon**.*
