SUNWAY

Financial aid for NKF

CURRENTLY helping over 1,600 patients annually, the National Kidney Foundation of Malaysia (NKF) needs some RM30 million in funding annually. It needs RM15 million to pay for dialysis subsidies alone. Another RM15 million is for the operation of 27 NKF centres nationwide, as well as public education programmes and more.

Contributions can be made through Sunway Medical Centre (SMC) until March 6.

"For every ringgit donated by the public during our 30 Days To Happy Kidneys campaign, SMC is matching the sum with another ringgit. To allow more people to donate, the fundraising has been extended to March 6," said Nadiah Wan, organising chairperson, #30DaystoHappyKidneys campaign.

Donate at SMC or online at www.peplegiving.org/campaign-page?campId=174.

The deadline extension is also to conclude with SMC's free Wound Care Mini GP Symposium on a comprehensive review of wound care management to be held on March 6. Currently open for registration, GPs who are interested to participate can call 03-7491 9191.
