

HAMPERS TO RAISE FUNDS

WITH their coloured baubles and oversized ribbons, the National Kidney Foundation's festive hampers are its latest initiative to raise funds. The special edition year-end hampers are available for a limited time.

"The donations we will receive from the sales of these hampers will give hope to patients with end-stage kidney failure. We are further inspired to continue providing quality dialysis care to underprivileged dialysis patients, and we are grateful to donors for their contri-

butions," says NKF chief executive officer Chua Hong Wee.

NKF currently cares for over 1,550 kidney failure patients in 28 dialysis centres nationwide.

Supplied by Just Heavenly, buyers can be assured that taste tests have confirmed that even with a reduced sugar content, the hamper goodies remain uncompromised in terms of flavour and texture. The festive hampers are priced at RM150, RM250, and RM350.
