

National Kidney Foundation recognised

The National Kidney Foundation Malaysia's efforts in kidney health management and education were recently recognised by the Asia Pacific Brands Foundation through the inaugural Brandlaureate CSR Brandleadership Award 2018. This award recognises corporations, non-governmental organisations, societies, institutions and individuals who have gone out of their way to give back to society, as NKF Malaysia has done in the past decades. Currently, the non-profit charitable organisation is subsidising over 1,600 patients in over 28 dialysis centres nationwide, in addition to championing kidney health through public knowledge and awareness campaigns.
