Charity fair raises funds

ON 6 July, Sri Garden International School held a Charity Food and Fun Fair to raise funds for multiple charity organisations. The fair was held in the school's premises and run by 1,500 determined students, guided by their teachers. The event was conceived by the school with a goal to raise RM75,000 for five charity organisations.

Parents also generously contributed to the fair. The National Kidney Foundation, Yayasan Nanyang Press, Leukaemia's Lions Lyfe-Line Fund, plus three orphanages — Sinthamain Life Ashram, Raydha and Baitul Ehsan — were the five organisations that were deeply touched by the contribution given by the school.

With months of planning and hard work put into it, the event was a great success and brought smiles to everyone on the day. The event was a part of the students' holistic learning, aimed at building strong characters and enabling them to take their place as productive leaders in the global community. Still hoping to do more for society and the less fortunate, Sri Garden continues to strive to hold many more such events in the future.
