

# Grab, NKF raising \$ for dialysis machine

KUALA LUMPUR: In conjunction with World Kidney Day, Grab e-hailing app in association with National Kidney Foundation (NKF), Malaysia, are joining forces once again to raise funds to purchase a new dialysis machine to help NKF's underprivileged kidney failure patients. From now until Dec 31, app users can visit the GrabRewards catalogue and convert their points into donations.

The NKF needs RM26.5 million annually to subsidise dialysis patients who are seeking dialysis treatment at the 28 dialysis centres nationwide.

Hence, for every 600 GrabRewards points that are used, it will be converted into a RM5 donation towards the foundation.
