

MATCH MADE IN HEAVEN

The National Kidney Foundation, together with the Health Ministry and the Malaysian Society of Nephrology, organised a virtual forum in conjunction with World Kidney Day, themed "Living Well with Kidney Disease". The event was aimed at raising awareness and promoting educational support for people living with chronic kidney disease. Film director Gordon Ling was invited to share his journey of being a kidney donor and caregiver to his wife. After countless tests and a biopsy, the result showed that his kidney was a perfect match for his wife, much to the surprise of their doctors.
